TECHNICAL PARTS

Technical parts

Our production program also includes technical parts for various industries, mainly the automotive industry. This includes various seals, spacers and absorbing elements, some with a self-adhesive design or with a surface finish protecting against humidity and dust. The most often used materials are PU foams with various basis weights and designs, including impregnated or recycled ones. But also cross-linked PE foams, expanded synthetic rubbers or EPP foam parts, including possible foamed-in fasteners, etc.

INTEROBAL®

LEADING PRODUCER OF TRANSPORTATION AND STORAGE PACKAGING

Production range

- Constructive packaging
- Transportation and storage packaging
- Processing corrugated polypropylene
- Plastic and aluminium cases with inlays
- Technical parts and seals
- Production of profiled PU elements
- Storage packaging with non-woven textiles

Development

- Our own development centre
- Comprehensive packaging solutions
- Production of prototypes
- Bespoke packaging solutions
- Testing and transportation tests
